POLISHING PERFECTION

Italian Made, Since 1986

Polishing Perfection

Italian Made

Since 1986

THE PACIFIC ABRASIVES STORY

Since our founding in 1986, Pacific Abrasives has been a leading provider of top tier Italian polishing products in the U.S., Canada, and Mexico. Our 100% silicone products have eliminated the need for rouge and messy compounds, and have transformed the polishing process, making it extremely efficient and clean. We source only the highest quality abrasive grit, which produces incomparable polishing results.

Our line includes wheels, discs, cylinders, and points, in various sizes and grits. We also offer a wide range of cutting, grinding, and roughing discs. Applied to all types of precious and non-precious metals, porcelain, ceramic, acrylic, lithium disilicate and zirconia.

Our industries served includes dental, jewelry manufacturing, dental lab, orthodontics, clockmaking, gunsmithing and industry.

COMPANY INFO

06

PRECIOUS METAL POLISHERS

06 | Hard White

White, hard, pre-polishers for precious metals. Removes scratches, leaves a smooth satin finish, and prepares the material for final polishing.

06 | Medium Dark Grey

Dark grey, medium, pre-polisher for precious metals. Removes scratches, leaves a smooth satin finish, and prepares the metal for final polishing.

06 | Gold-Flash

Pink, gold flash, high-shine polishers for precious metals. Leaves a brilliant high-gloss finish after the initial polishing process.

06 | Extra-Fine Platinum Polishers

Green, extra-fine, polishers for precious metals, specifically softer metals such as platinum. Removes scratches, leaves a smooth satin finish, and prepares the metal for final polishing.

06 | Silipum Polishers

Produced with a combination of silicone and pumice, excellent for removing scratches around bezel and prong set stones. They will not scratch the stones and are very long lasting

07 | All-In-One

These products will allow you to polish and shine in one step! Ideal for touch-ups. Suitable for precious metals and stones. Will not scratch the stones.

07 | 3mm Mini Points

3mm Mini Points for working in hard to reach areas. Available in 3 grits. Use the MMP mandrel

07 | 2mm Micro Points

2mm Micro Points for working in hard to reach areas. Available in 5 grits. Use the MA-20 mandrel.

07 | Inside Ring Polishers

Specifically designed for polishing and finishing inside rings. Available in 4 grits. Use the CR-13 or CR-SS mandrels.

08 | Coarse Mounted Points

Pre-polish mounted points available in 5 shapes, handpiece (HP) and contra-angle (W)

08 | High-Shine Mounted Points

High-shine mounted points available in 5 shapes, handpiece (HP) and contra-angle (W)

08

BURLEW

08 | A universal polisher for ceramic, alloys, plastics, gold and various metals. Made of silicone and pumice.

09

ZIRCONIA AND LITHIUM DISILICATE

09 | 4 Elements

4 premium diamond discs for grinding, contouring, and finishing zirconia and lithium disilicate. Available in 4 grits.

09 | Diastone

Produced with diamond and abrasive grit. For contouring the material with low heat. Excellent results on all ceramics. Available in 5 shapes

09 | Diacut

100% diamond. Very hard and extremely long lasting. The ultimate contouring product for zirconia. Available in 5 shapes.

09 | Zirconflex

Very efficient contouring of zirconia. Virtually no heat build-up so keeps material free of micro-cracks. No water cooling required.

09 | Sintered Diamond Points

Mounted points produced with sintered diamond that remain cool while working the material.

10

PORCELAIN POLISHERS

10 | Coarse

Premium coarse polishers excellent for adjustments and smoothing the material.

10 | Medium

Medium grit for minor adjustments and produces a beautiful finish.

10 | High-Shine

High-shine polishers produce a brilliant high-gloss on the material. Used after initial polishing.

10 | Improved Extra-Coarse

Extra-coarse and long-lasting coarse polishers for adjustments and smoothing.

10 | 3mm Points

3mm Mini Points for hard to reach areas. Available in 2 grits. Use the MMP mandrel

11 | Coarse Mounted Points

Coarse mounted points excellent for making adjustments and smoothing the material. Available in 5 shapes, handpiece (HP) and contra-angle (W)

11 | Medium Mounted Points

Medium grit mounted points for minor adjustments and producing a beautiful finish. Available in 5 shapes, handpiece (HP) and contra-angle (W)

11 | High-Shine Mounted Points

High-shine mounted points produce a brilliant high-gloss on the material. Available in 5 shapes, handpiece (HP) and contra-angle (W)

12 SEPARATING DISCS

12 | Micro_Fiber Reinforced Ultra-Thin

Ultra-thin separating disc reinforced with micro-fiber. Extremely durable, flexible, and long-lasting. Low heat produced and can be used at high speeds, 50,000 rpm max. Comes in 2 types (AF) & (SF) and 2 sizes (2mm) & (3mm). AF- aluminum oxide for alloys. SF-silicone carbide for zirconia, emax, and pure gold.

12 | Ultra-Thin Aluminum Oxide

Ultra-thin separating discs for gold. Available in 2 sizes, 3/10mm and 2/10mm. Used up to 20,000 rpm

12 | Speedy

Speedy discs from France. Durable thin discs for cutting metal, porcelain, and ceramics

13 ALUMINUM OXIDE

13 | Cutting Discs

Pure aluminum oxide cutting discs for metal, non-contaminating and odorless. Available in 4 sizes.

13 | Roughing Discs

Pure aluminum oxide roughing discs for metal, non-contaminating and odorless. Available in 3 sizes.

13 GREEN STONES

13 | Green Stones

Mounted stones for grinding gold, silver, porcelain, and composite. Available in 10 shapes.

14 LARGE WHEELS

14 | Large wheels made with silicone carbide for precious and semi-precious metals. Available in 4 grits and 3 sizes.

14 SPLIT LAPS

14 | 6" silicone carbide split laps for fast cutting and smoothing of precious and semi-precious metals. Available in 2 grits.

15 NON-PRECIOUS METAL POLISHERS

15 | Coarse Blue

Blue coarse pre-polisher for non-precious. Removes scratches and leaves a smooth satin finish on the material.

15 | For Steel

Long life hard polishers made specifically for steel

15 | N.P. Special

Non-precious metal polishers for removing scratches and smoothing.

15 | High-Shine

High-Shine polishers for producing a brilliant high-gloss finish on non-precious metals.

15 | Coarse Jumbo Points For Steel

Mounted jumbo points for removing scratches and smoothing steel and non-precious metals.

15 | High-Shine Jumbo Points For Steel

Mounted jumbo points for producing a brilliant high-gloss finish on steel and non-precious metals.

16 MANDRELS

16 | A full assortment of mandrels for wheels, discs, points, and cylinders. Sold individually.

17 ORTHODONTICS / PNEUMATIC HAMMER

17 | Pneumatic Hammer – Chisel

A pneumatic chisel designed exclusively for deflasking and working stone models. Extremely smooth with low vibration, low maintenance, and can save up to 80% of the deflasking time. The lightweight and ergonomically designed tool provides good hand control during usage and helps ensure against breakage. Use at 80psi with standard air hose.

17 | Jumbo Points

Mounted jumbo points in various shapes used for adjusting, smoothing, and polishing acrylic material.

18 KITS FOR JEWELERS

18 | Assortment of kits for jewelry manufacturers.

APPLICATIONS

- Removing rough surfaces
- Polishing and buffing both hard and soft materials
- Removing excess solder
- Cleaning threads and grooves
- Polishing borders of particular shears or stamps
- Polishing and buffing acrylic resins and composites
- Smoothing and polishing after rough grinding
- Smoothing glass edges

WORKABLE MATERIALS

- Porcelain
- Zirconia
- Lithium disilicate
- Titanium alloys
- Silver alloys
- Precious medals
- Zinc and alloys
- Copper and alloys, brass, bronze
- Glasses, stoneware, porcelain
- Rubber, leather
- Wood
- Natural and artificial precious stones
- Marble and ornamental stones
- Ivory and coral plastics, thermosetting or thermoplastic resins
- Aluminum and magnesium alloys

INDUSTRIES

- Jewelry
- Dental
- Aircraft, engines, frames
- Engines and turbines
- Eyeglass mounting
- Guitar repair and musical instruments
- Gunsmithing
- Glassware, ceramics, porcelain
- Lapidists and silverware
- Molds
- Surgical instruments
- Welding

SAFETY

- Always ensure machinery is in working order
- Always use protective eyewear
- Use at variable speeds but never exceed suggested maximum speed
- Avoid overheating
- Products must be properly mounted before use

TERMS

- Net 30 days from date of invoice with approved credit
- All orders will be shipped UPS ground unless otherwise requested.
- Most orders will be shipped same-day. If there is a delay in shipping you will be notified.
- Returns are accepted for full credit within 3 months of purchase pending products are in original re-sellable condition without private label. Otherwise 20% restocking fee will be applied
- Prices subject to change
